

Wymondham C of E Primary School

Maths

In maths this term we are going to use our knowledge of place value to solve:

Addition and subtraction

- 2 digit numbers
- Adding across 10s
- Subtracting across 10s

Multiplication and division

2s, 5, 10s and 3s

English Writing

Narrative – Fairytales

Sentence structure and grammar techniques

Spelling, punctuation and grammar

Coordination Conjunctions or and
Subordination when if that because
Sentence Structures statements, questions,
exclamations, commands
Adverbs
Past and Present Tense

RE

What is Islam and where did the religion come from?

What are the 5 pillars, why are they so important?

What do Muslims believe and what is important to them?

What is the important book and how do Muslims treat it?

Where do Muslims worship?

Who is the Prophet and how do his stories help?

Welcome back!

Hope you have all had a fantastic Christmas holiday.

Reminders

Children are to come to school wearing their PE kits on Wednesdays and Fridays.

Reading at home

Please ensure that you are reading at home with your child at least twice weekly. This doesn't need to be their whole reading book, just a few pages!

History – The Great Fire of London

In this topic, the children are going to learn about the Great Fire of London and how shaped the world that we live in today. The children will need to have a secure understanding of where London is and what it looks like today. This may require some pre-teaching so that the children can recall key information for comparisons.

The topic begins by describing London during the Tudor era. The children will find this easier to comprehend if they have an understand of how London looks today. It may also be useful to display a timeline to help them to understand when the Stuart era was and how long ago.

The lessons then go through each of the significant events that took place during the Great Fire. As well as the significant people who documented the event.

Finally the lessons focus on how London and it's people changed and adapted their way of life to ensure that this doesn't happen again.

Class 1 Curriculum Overview Spring 1 2026

Science

This 'Everyday Materials' unit will teach us about everyday materials including wood, plastic, metal, water and rock.

We will learn to identify and name everyday materials and will have the opportunity to explore the properties of these materials.

Geography

In this unit, the children will learn that the Earth is divided into seven continents and five oceans. They will use world maps, atlases and globes and will learn to identify these continents and oceans.

They will learn the difference between human and physical features and will be able to recognise these when using aerial photographs. They will learn about key human and physical features in each of the continents and why these are important.

Computing Digital music

PSHE

Harold's picnic
How safe would you feel?
What should Harold say?
I don't like that!
Fun or not?
Should I tell?

Have love for one another, a tender heart and a humble mind.
